

Epson Integrated Report 2026

Editorial Policy

Editorial Policy

Epson has published an integrated report every year since 2017 to foster better understanding of Epson's corporate purpose among its shareholders, investors, and other stakeholders, as well as to create a virtuous cycle that helps Epson further enhance its corporate value by refining its strategies through discussions with stakeholders. We have continuously sought to improve the report by incorporating feedback received from stakeholders through engagement and dialogue, while maintaining a global perspective and drawing on international guidance such as METI's Guidance for Collaborative Value Creation and the International Integrated Reporting Framework of the International Integrated Reporting Council (IIRC).

In Epson Integrated Report 2026, we have emphasized the new long-term vision and medium-term management plan announced in March 2026. We have also addressed underlying issues our goals, and our specific strategies and initiatives in order to further deepen understanding of and confidence in Epson's initiatives. We hope this report will facilitate further dialogue.

- Publication date: July 2026
- Period covered: April 1, 2025 to March 31, 2026 (Some information is from outside this period.)
- Organizations covered: 88 Epson Group companies (including Seiko Epson)
 - "Epson" refers to the Epson Group, unless indicated otherwise.
 - Performance figures presented in this report are rounded off to the unit indicated.
 - Please do not use images and other content in this report without permission.

■ Disclaimer

This report includes forward-looking statements, estimates, and plans. Projections herein are based on the best information available at the time of publication. Actual results may vary from those discussed.

Statement of Authenticity

This Integrated Report presents financial and non-financial information concerning Seiko Epson, including information on initiatives related to environmental, social, and governance (ESG) matters. The report has been compiled and verified through sound internal processes and internal controls, and presents information accurately and faithfully in all material respects. We hereby affirm that this report effectively demonstrates Seiko Epson's responsibilities toward the realization of a sustainable society and the status of our ongoing value creation.
